

ROBBERS SLAIN
BY THE POSSE.

Bloody Battle Fought Near Desota Today.

BANK THIEVES SHOT TWO MEN
AND ESCAPED WITH \$15,000.

Finally Cornered in a Barn By the Pursuing Party and One of Them Instantly Killed While the Other One Surrendered and Will Be Lynched—Cashier Leach Fatally Injured and J. M. Bailey Seriously Wounded

Adel, Iowa, March 6.—Masked robbers entered the savings bank at this place shortly after the doors were opened this morning. Cashier S. M. Leach offered resistance and was shot and fatally wounded. J. M. Bailey, a merchant, who came to Leach's assistance, was also seriously wounded. The thieves got \$15,000 and escaped with the money, but a posse at once organized and went in pursuit of the robbers. They overtook the thieves near Desota at 11 o'clock, but the latter took refuge in a barn, and a battle ensued. One of the robbers was instantly killed and the other surrendered. He will be lynched.

Montgomery, Ala., March 6.—The little town of Auburn, Ala., where is situated the Alabama Agricultural and Mechanical college, was startled Sunday night by a fusillade of gun and pistol shots and cries of murder. A crowd of cadets had surrounded a house, intent upon securing the person of George Turkey, a negro, who had cursed one of their number. Turkey, it is said, came to the door and fired at the students, whereupon they opened fire upon the house and peppered it with bullets, 100 shots being fired. Then they stole away before the authorities could arrest them. One cadet was slightly wounded. Turkey was shot in the shoulder. Will Tarver, another negro, and a negro were struck by pistol balls. None, however, is dangerously wounded. A large body of negroes congregated after the firing and race trouble was feared, but all is now calm.

Terre Haute, Ind., March 6.—Louis Tomwsh, a Russian miner, on his way from Colorado to Pennsylvania stopped at a camp-fire of four tramps west of this city last night to get warm. The tramps set on him and beat him insensibly, then stripped off his clothes, took a sum of money and threw him in the fire. After torturing him for two hours they gave him an old pair of overalls and shoes and drove him away. Tomwsh came to the city this morning and reported to the police.

Traced to a Former Justice's Door. Vincennes, Ind., March 6.—John P. Angleberger, recently justice of the peace, has been arrested charged with causing the explosion by dynamite at Decker. The bloodhounds went to his door each time they were tried. Saturday Bennett, who is Angleberger's son-in-law, gave the latter a whipping. Mrs. Angleberger recently left her husband and went to live with her daughter, Mrs. Bennett. She has since sued for a divorce.

Barricaded in His Own House. Pittsburg, Pa., March 6.—Martin Farrell got drunk and chased his sister out of the house with a rifle Sunday night. The police were sent to arrest him, but with two other men he barricaded his house. Taking a position at a window he has stood guard there for thirty-six hours and refuses to allow the police to come inside his yard. The police are afraid to rush in and attempt to batter down the door as Farrell is a bad man and a dead shot.

Think They Have Some Bad Men. Council Bluffs, Iowa, March 6.—Photographs of the Griswold bank robbers were sent the Pinkerton agency and Inspector Shea of Chicago last night. The theory here is that White, alias Wilson, is Jim Dunlap, the Northampton bank robber, and that Smith, alias Barnes, is Henry Jackson, who murdered Sergt. Sheehan of the Cleveland, Ohio, police force last September. The Chicago police do not recognize the photographs of the men.

Incendiaries at Work. Kingston, N. C., March 6.—An incendiary fire destroyed twenty-five buildings, twelve being stores. Loss, \$40,000; insurance, 10,000. Last Thursday Kingston had a \$200,000 fire, with insurance of \$90,000.

JOHNSON EXONERATED.

Senator Boyd's Charges Are Not Sustained by His Committee.

Indianapolis, Ind., March 6.—The investigation of the Home for Feeble Minded Youth at Fort Wayne has ended. The committee reported to the house yesterday and practically vindicated Superintendent Johnson, against whom Senator Boyd made public charges in the senate. It is said the investigation instituted against the asylum at Evansville, Ind., the prison south, will also come to naught. The congressional apportionment bill passed the senate yesterday, 27 to 20, and when it reaches the governor it will probably be vetoed, the same was the legislative apportionment measure, after which it will be passed over the veto. Senator Shively's bill providing for the management of all the state benevolent institutions was also passed, and will have to be carried over the governor's veto. Another important bill signed gives the governor, auditor, and treasurer of state power to issue bonds to pay any part of the state debt. The militia bill was also signed. It makes an annual appropriation of \$45,000 for the militia. The name of the militia is changed to the Indiana National guard instead of the Indiana legion. Whenever troops fire on a mob the officer in

command shall not the civil authorities shall give the order. Blank cartridges shall not be fired. The legislature shall provide for any soldier or officer wounded in service and for the widow or children of any soldier or officer killed. A militiaman in his line of duty who kills a citizen shall be tried only by court martial.

MRS. VANDERBILT FREE.

Millionaire's Wife Wins Her Divorce and Children.

New York, March 6.—A decree of absolute divorce was granted yesterday by Justice Barrett of the Supreme Court to Alva E. Vanderbilt from William K. Vanderbilt. The name of the respondent is unknown. By the terms of the divorce the custody of the three children, Miss Consuelo Vanderbilt, William K. Vanderbilt, Jr., and Harold S. Vanderbilt, is given to Mrs. Vanderbilt. A liberal allowance is granted Mrs. Vanderbilt. The Vanderbilt trouble became known to the public last August.

WILLIAM K. VANDERBILT.

when a Paris dispatch stated that formal negotiations had begun for separation between Mr. and Mrs. Vanderbilt. At that time, and frequently since, the name of Nelle Neustetter, a well-known woman of Paris, of Dutch birth, figured in connection with the scandal. William K. Vanderbilt is the second son of William H. Vanderbilt. He received a bequest from his father of \$10,000,000 and one-half the residue of the estate, estimated at \$100,000,000. In 1877 he was made second vice-president of the New York Central Railway company. When, in 1882, his father retired from the presi-

dency of the roads in the great Vanderbilt system, the active work devolved on his brother Cornelius and himself. Under the management of the brothers the great Vanderbilt property has increased to immense proportions. William K. is now in Europe. By the terms of the decree it is adjudged that the plaintiff be permitted to marry again during the life of William K. Vanderbilt as if the marriage to him had never taken place. It is decreed, however, that William K. Vanderbilt is not permitted to marry during the life of the said Alva E. Vanderbilt.

TURKEY LOSES ITS CASE.

Investigation Shows Sultan's Troops to Be Worse Than Beasts.

London, March 6.—The American correspondent of the Telegraph declares that already the Turkish case before the commission appointed to investigate the Armenian outrages has completely broken down. The only matter not yet cleared up is the question as to the party to be regarded as responsible for the massacre. The fanaticism of the Mohammedans is being aroused and threats of a massacre of Christians directly the delegates have been retired are heard in Kharpool, Van, Bitlis, Moosh and Erzerum. Many innocent Armenians have been wantonly attacked and beaten and even killed, while their relatives were afraid to speak for fear a worse fate was in store for them.

CERTIFICATE DEFECTIVE.

Board Declines to Place Castellane-Gould Marriage on Record.

New York, March 6.—The board of health refused to record the marriage certificate of Anna Gould and Count de Castellane on the ground that it was defective in a vital point. All information as to the matter is refused by the board of health, the president saying that as it is in the discretion of the board they will not make the record public without the permission of the family. It is said the cause for the board's action is that no date was given in the certificate.

Passed Anti-Cigarette Bill.

Lincoln, Neb., March 6.—The Nebraska house yesterday passed the anti-cigarette bill. Gov. Holcomb sent a message announcing that he had signed the anti-oleomargarine bill, but recommended that an amendment be introduced so that oleomargarine could be manufactured in the state for export only.

Leaves His Land to Mormon Church.

Lyons, N. Y., March 6.—By the will of Jesse Seelye, late of Savannah, Wayne county, one of the first converts of Joseph Smith to Mormonism, his farm of twenty-five acres in Savannah becomes the property of the Mormon church after the death of his widow. The will is in the handwriting of the testator, who was 87 years of age when it was drawn up.

A CITY LAID WASTE
BY RAGING FLAMESTRINIDAD CITY, SPAIN, NEARLY
WIPE OUT.

The Property Loss Will Reach \$400,000—American Excursion Steamer Friesland Ashore in a Bad Position at Port Said, Egypt But the Passengers are Safe.

New York, March 6.—A dispatch from Port of Spain says that Trinidad was almost totally destroyed by fire last night and the loss will reach \$400,000.

New York, March 6.—Advices from Port Said, Egypt, are that the American excursion steamer Friesland is ashore at that place and is in a bad position but the passengers are safe.

Paris, March 6.—During the discussion of the army budget in the chamber of deputies yesterday, M. Roche, reporter of the committee, said France tried to place its army upon a parity with those of other nations, but since 1887 the military expenditures of Germany had exceeded those of France. The German military doctrine was based upon numerical strength, and Germany now possessed an army ready to fight at any moment. He said that 542,000 men ought to be serving in the French army; but as a fact, only 404,000 were serving. He demanded that the French army should be as well organized as the German army, claiming that the economizing of a few million francs might defeat in the event of war. M. Cavaignac, minister of war, reproached M. Roche for exaggerating the gravity of the situation, maintaining that the French army only numbered 50,000 less than the German army.

GERMAN HUSBANDRY COUNCIL.

Baron Von Cotta Offers a Resolution Covering Demands to Be Made.

Berlin, March 6.—The German Husbandry council opened here yesterday. Baron von Cotta offered a resolution demanding the refusal of the most favored nation treatment to countries outside of Europe competing with Germany; the eventual establishment of a customs union of the European husbandry states; an international settlement of the currency question and the immediate adoption of measures for raising the price of cereals on the basis of Count von Kanitz's motion for a state monopoly of cereals.

Henry Chaplin's Bimetallist Views.

London, March 6.—Henry Chaplin, the president of the board of agriculture in Lord Salisbury's last cabinet, was asked yesterday if the English bimetallists think their cause has been advanced by the action of parliament. He said: "An international agreement on a bimetallic basis depends, I believe, on the attitude of England. There is a wide and probably well-founded impression that if England were prepared to join in an arrangement for the free coinage of silver there would be little hesitation on the part of the other nations; but public opinion in England, especially in this city, is not sufficiently advanced to warrant such a proposal by the English government at present. It is steadily progressing, however."

Spain Thinks the Cubans are Tired.

Madrid, March 6.—Dispatches received here from Cuba say Yaguey, the chief of a powerful band of brigands, which has been operating in the province of Matanzas, has yielded his submission. This, it is added, put an end to the rising in that province, which was the most formidable in the whole island. Gen. Lechambre has commenced operations against the town of Balre, which is occupied by the insurgents. In the Province of Guantanamo only four rebel bands, numbering in all 180 men, now exist.

Calls the Land Bill a Betrayal.

Dublin, March 6.—Timothy Harrington, at a meeting of the Irish League, said John Morley's Irish land bill introduced in the house of commons by the chief secretary for Ireland filled them with sorrow and dismay. According to Mr. Harrington, this measure is a betrayal of the evicted tenants which has no parallel in Irish history.

Two Vessels in Trouble.

Queenstown, March 6.—The British bark, Ringdove, Capt. Walsh, which sailed from Darien, Ga., Dec. 1, has arrived here and reports that Feb. 6 it passed a ship on fire and another vessel with its rudder gone. The names of the two vessels could not be made out.

Brings News from Cuba.

New York, March 6.—The steamer Vigilancia, which arrived yesterday, brings news from the revolution in Cuba. According to the passengers the revolt is of a more formidable character than the Spanish authorities seem willing to admit.

Have Caused the Fire.

Alpena, Mich., March 6.—Fire yesterday destroyed the large brick Polish Roman Catholic church at Posen, near here, with a loss of \$30,000. The evidence points strongly toward one faction of the congregation as the cause of the fire. For several years a bitter fight has been carried on between the two factions, during which the priest and several parishioners have lost valuable property in incendiary fires. Recently a pitched battle occurred between the two parties in which a number of heads were cracked and much blood spilled. The insurance on the church aggregates \$5,000.

Canada Will Reciprocate.

Ottawa, Ont., March 6.—Cape Colony has offered free trade with Canada, with all the gain which that means to both countries, including an advantage to the Canadian markets of Cape Colony equal to 20 per cent over those of the United States and even Great Britain. This is the first practical move in the direction of preferential trade. The Canadian government will reciprocate.

10,000 MINERS QUIT
BECAUSE OF A CUTBIG STRIKE IN PENNSYLVANIA
COAL FIELDS.

Orders to Hold Out Until the Sixty-Nine Cent Rate Is Granted and All Attempts to Compromise Fail—Missouri Miners Won Their Fight and Are Back to Work.

Pittsburg, Pa., March 6.—A strike among the miners of the Pittsburg district is on. In the Moon Run (Pan-Handle) district every mine except the Creedmore is idle. At this point machines are used, and as the machines rates had not been arranged until yesterday the operatives did not quit work. In other districts the miners decided to wait until the return of the delegates before striking. The mine owners were taken by surprise. When they found the miners were proceeding on entirely different lines from those of former strikes they were ready to talk settlement. At a meeting of the new association of operators formed last week a committee composed of Messrs. Schenck, Wilson, Young, Dysart, Dempster, and Osborne was appointed to meet a similar committee of miners to settle the strike. The operators wanted to compromise, but the miners representatives refused to listen to any half way measures. Secretary Warner said they are prepared to remain idle all summer to enforce their demand. The miners yesterday censured Judge Ewing of Fayette county for his recent "pluck me" store decision. It was almost midnight when the conference adjourned. No agreement had been reached. The miners refused to listen to anything except 69 cents.

Strikers Win Their Fight.

Mexico, Mo., March 6.—The coal strikers at the Lanyon company's mines who quit Friday because their wages were reduced from 75 cents per ton to 50 cents have won. The new men will be discharged.

FOR A SILVER PARTY.

Manifesto Issued Yesterday by the Bimetallist League.

Washington, March 6.—For two weeks or so the bimetallist league has been holding conferences with the expressed purpose of organizing a new silver party on a 16 to 1 basis. The manifesto was issued last evening. It declares for silver always at 16 to 1 and denounces national bank notes and bonds of all descriptions. The manifesto arraigns both the republican and democratic parties for subservience to the "gold bugs."

A committee consisting of the following named gentlemen, Gen. A. J. Warner, president American Bimetallist league, chairman; William Stewart, United States senate; Henry Jones of Georgia, Francis G. Newlands of Nevada, Anson Wolcott of Indiana, and J. J. McLaurin of South Carolina, was appointed to select a provisional national committee to consist of one member from each state and territory and the District of Columbia, to take charge of the movement for the new silver party in the several states and territories.

BILL LIKELY TO FAIL.

Changing Government of Michigan Cities Causes Intense Hostility.

Lansing, Mich., March 6.—The work of preparing bills for the government of the cities of Michigan, on which a special commission, appointed by the governor, has been at work for the last year, bids fair to come to a fruitless ending. There are fifty-three cities that would be affected if the bill became a law, and their interests are so diversified that it is doubtful if the bill can be made satisfactory to them all. In committee of the whole the house agreed to the bill providing for the payment of 50 per cent of state and county taxes in July and the balance in December, instead of having the entire assessment paid in December as under the present law.

New Revenue Bill for Illinois.

Springfield, Ill., March 6.—The subcommittee, Senators Littel and Green and Representatives Merriam, Jones of Iroquois, and Ferns, appointed by the joint revenue committee, has drafted a new revenue bill, which repeals all other revenue legislation. A joint session has been called for Thursday to hear the report and to begin the work of discussing and revising the proposed new measure. The power of all municipalities to incur indebtedness as provided by the constitution of the state is by this bill limited to 1 per cent of the assessed valuation there.

Anti-Roby Bill Found.

Indianapolis, Ind., March 6.—The Roby bill that was stolen from the senate chamber Monday was found yesterday among old papers in a closet where it had been thrown after the thief had discovered it was the enrolled and not the engrossed bill which he had taken. Senator Seller, who was suspected of having had a hand in the disappearance of the bill, has demanded an investigation and a committee was appointed.

The New Pension Ruling.

Washington, March 6.—The officials of the pension bureau will soon take active measures to put into operation the recent legislation raising all pensioners receiving less than \$6 a month to that rating. It is estimated that 4,000 cases will be affected by the legislation and will involve an increase of about \$1,500,000. The bureau has given notice that the pushing of individual cases will be unnecessary.

Heavy Failing Off in Immigration.

Washington, March 6.—A statement prepared at the Immigration bureau shows the total number of immigrants arriving at United States ports during the seven months ending Feb. 1, 1895, was 113,375, as against 189,582 for the seven months ending Feb. 1, 1894, a decrease of 76,207 or 40 per cent.

CLOSING HAYWARD CASE.

County Attorney Nye Addresses the Jury
In Behalf of the Prosecution.

Minneapolis, March 6.—The closing act in the great Hayward murder trial was begun yesterday under strange auspices. The deputies and attendant nurses had brought S. H. Dyer, the sick and aged juror, carefully into court and deposited him in a reclining attitude in an easy chair. It was an evident effort for him to hold up his head, but when at last he found a comfortable position court was opened, and the defense having concluded to introduce no more evidence, Frank Nye, the county attorney, rose to address the jury. His face was ashen pale, and as he leaned against the table it did not seem that he could possibly prove equal to the five hours of talk that were before him. However, before he had been talking twenty minutes the oratorical excitement was upon him, and his friends were confident that he would hold out to the end. Mr. Nye opened with an admission that he did not feel strong enough to be sure of going through to the end of the closing argument. But he felt sure that the verdict did not rest on any arm of flesh. God, who ruled the universe, would direct the light of truth on this extraordinary case. Briefly but effectively he sketched the career of Harry Hayward, his gambling proclivities, his associations with Miss Gine and his influence over "this sick man" Blixt. The crime had been committed by Blixt at the incitation of Hayward, but it had brought with it a revolution in his entire being. After it came conscience, remorse, horror of himself. No man could picture the agony of the horror that Blixt endured after the commission of the crime until he decided to tell the truth. Hayward, Mr. Nye said, had pursued this plan of getting Blixt under his mental domination for months. Blixt had killed Kate Gine in a frenzy and not as a criminal would have done it. He was not a criminal at heart. Scarcely knowing what he did he had hurried poor Kate Gine into eternity at the behest of that black villain and conscienceless scoundrel here accused.

Mr. Nye followed the testimony carefully and concisely, elaborating and strengthening by argument and eloquence that offered by the state and criticising and pointing out the weak points of the defense. At the close there was a spontaneous burst of applause. Mr. Nye sat in his seat and received the congratulations of his friends, first among whom was his antagonist, W. W. Erwin, who heartily complimented him upon his wonderful work.

Mr. Erwin begins his argument this morning and will probably continue Thursday. The case, it is expected, will be given to the jury that afternoon.

GAIN FOR TREASURY.

Income Tax Returns May Foot Up Over \$60,000,000.

Washington, March 5.—The number of persons and corporations liable to taxation under the provisions of the income tax law was originally estimated at \$5,000. It is now believed that returns will show that over 250,000 individuals, estates and corporations are in receipt of annual net incomes in excess of \$5,000. Blanks to the number of 300,000 were sent out to revenue collectors, but that supply proving entirely inadequate, another 300,000 lot was printed, and now there are more than half gone. Upon information offered by revenue collectors the commissioner of internal revenue bases an opinion that very little trouble is going to be experienced in collecting the tax, and that it will be honestly paid without serious objection. The tax is so small—only \$20 on every \$1,000 net income over and above \$4,000—that there is very little valid excuse for not paying, and then the matter of pride is going to enter into the question very largely. It would not be surprising if \$60,000,000 to \$75,000,000 were realized from the income tax, instead of \$20,000,000 to \$30,000,000, as originally estimated.

Million a Month for War.

New York, March 6.—The Herald's special cable from Panama says President Caro, of Colombia, has issued a decree authorizing a tax levy of \$1,000,000 a month to defray the expenses of the war. Article 27 of the decree declares that in the collection of the loan compulsory measures may be adopted, and in the case of necessity coercive measures may be adopted. In such event it will be regarded solely as a war tax, and any person resisting its collection may be imprisoned and considered an enemy to the legitimate government.

Helped Booth to Escape.

Baltimore, March 6.—Thomas Jones died at La Plata, Charles county, yesterday, aged 74 years. He was the man who helped J. Wilkes Booth to escape into Virginia after the assassination of Lincoln. Booth was hidden for seven days in a swamp on the farm of Samuel Cox, and was supplied with food by Jones, who later placed Booth and Harold in a boat and piloted them to the Virginia shore. He was offered \$10,000 if he would make known the hiding place of Booth. He refused the money.

Rescued by His Baby Sister.

Hackensack, N. J., March 6.—Andrew Salvinski, 14 years old, while skating on the Hackensack river, broke through the ice and disappeared in ten feet of water. His 7-year-old sister Mary saw the accident. The children's mother was also on the river bank. When her son went under the water the mother became paralyzed with fright and could not move. The little girl ran out on the ice and as her brother came up grabbed his coat collar. She held on despite the danger until help arrived and the boy was dragged out from the water.

Settles Minnesota Capitol Question.

St. Paul, Minn., March 6.—The house yesterday afternoon settled the capitol question by passing the bill authorizing the capitol commission to advertise for plans for a new building in St. Paul.

Earthquake in North Carolina.

BILLS PASS AND DIE
AT MADISON TODAYMANY MEASURES WERE BEFORE
THE LEGISLATURE

Senate Passes the Amendment to Make Sheriffs Eligible for Re-election—Dairy Bill Goes Through—Reformatory Provision Is Killed—Tax Probing Committee Named.

Madison, March 6.—The resolution for a constitutional amendment making sheriffs eligible for re-election was discussed in the senate this morning and passed by a vote of twenty-three to eight. The bills passed were The Wisconsin Dairymen's Association bill preventing the sale of oleo margarine and filled cheese for the genuine article; authorizing cities to pay for property destroyed to prevent the spread of contagious diseases. The bill for Elmira reformatory was killed. Assemblyman Hall of Duane County, Jones of Iowa county and Mahoney of Milwaukee were appointed to investigate the earnings of the railroads.

ILLINOIS LEGISLATURE.

Alleged Crookedness in Chicago Council May Be Investigated.

Springfield, Ill., March 6.—Senator C. Porter Johnson offered a decidedly sensational resolution in the senate just before adjournment. It charges that corruption exists in every department in the city of Chicago and Cook county, and provides for a joint committee of three from the senate and four from the house to have full power to investigate the whole city and county machinery and report its finding to the general assembly. It charges that the Chicago council has bartered valuable franchises to individuals and corporations without the least regard to public welfare and that the police department is corrupt and grants immunities to criminals and shields the unlawful element. The resolution is sweeping in its charges and alleges crookedness in all quarters.

A bill was introduced in the senate yesterday by Mr. Johnson of Cook which is calculated to prevent corporations from securing franchises by bribing city councils.

Hamer introduced a bill making hazing in educational institutions a misdemeanor. Hunter offered a resolution providing for the appointment of a committee of five to investigate the employment of convicts in view of the fact that the labor of convicts comes into competition with free labor.

Senator Hunt yesterday introduced another bill to regulate stock yards. The bill provides that no person or corporation engaged in the buying or selling of live stock at any public stock yard on commission shall charge more than three-quarters of 1 per cent of the price of sheep, hogs or cattle in carload lots and 1 per cent where sold in less than carload lots, and 1 per cent for wean calves in carload lots and 10 cents a head where sold in less than carload lots. Violation of the provisions is made punishable by a fine not to exceed \$1,000 or imprisonment in the county jail for not more than one year, or both. Persons violating the act are further made liable to pay to the person injured \$100 and costs, with such additional damages as the case warrants.

The senate passed Senator Wells' bill to prevent the manufacture by convicts of all articles such as cigars, drugs, etc., which pass through the mouths of human beings, except such as are for use in the penal institutions themselves, and Senator Evans' tax insurance companies not incorporated under the state laws 2 per cent of their gross premiums for the maintenance of local fire departments.

The civil service bill passed into third reading in the house yesterday after a breezy fight as one would wish to see. It was amended in a number of minor details to correct errors made in copying it.

PEACE DAWNS IN CHINA.

Li Hung Chang Leaves for Tien-Tsin to Make Negotiations.

Pekin, March 6.—Li Hung Chang started for Japan via Tien-Tsin to-day. He is now in supreme favor. During his stay in Peking he had five audiences with the emperor and two with the empress. The prospects for peace are regarded as very good, but there will be no armistice until a conference is had between the Chinese envoys and the Japanese representatives. Li Hung Chang has full power and is the bearer of an imperial dispatch to this effect. All of his rivals have been dispersed, and if his mission is successful many reforms will be instituted. Wung Tung Ho, the emperor's tutor, who has all along been the most powerful foe to progress, is now out of favor at the palace, and all of the high officials at the palace have experienced a complete change of sentiment. Mr. Pethick, American tutor to the children of Li Hung Chang, has been appointed private adviser of the interpreters who will accompany the mission.

Rosebery to Take a Rest.

London, March 6.—Lord Rosebery's condition is greatly improved this morning. However, he has been ordered by his physician to go abroad to travel. He is advised to go to some resort where he can be benefited by a warm climate, together with complete cessation from work.

Honors for Prince Bismarck.

London, March 6.—A dispatch to the Standard from Berlin says that Prince Bismarck will receive deputations visiting Frederickshafen for the purpose of congratulating him on the occasion of the anniversary of his birth until the latter part of May. The anniversary falls on April 1.

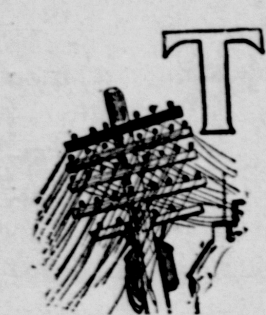

Distillery Burned.

Louisville, Ky., March 6.—Fire destroyed the distillery of J. B. Wathen & Co. Loss, \$75,000 to \$100,000; insurance, \$25,000.

CHEAP TELEPHONES WILL SOON BE HAD

2 MONTH FOR STORES AND \$
FOR RESIDENCES.

These Are the Rates to Be Charged
And If the Bell Monopoly Does Not
Come Down to a Fair Basis a Local
Company Will Put in a System.

HERE is a probability that Janesville people will soon be in the throes of a war waged by a local company with the telephone monopoly.

This may be a morsel of cheering news to those who have been compelled to use telephones and pay the exorbitant royalties to the Bell telephone monopoly.

Every Janesville citizen is perfectly willing that such a war should be declared at once, and that it be waged in earnest until all monopolies are broken down, and cheaper "hello" instruments guaranteed to the people.

Janesville patrons have been watching the telephone litigation in the United States court with much interest and the decision of Justice Harlan is received with general satisfaction.

Anticipating such a decision a number of Janesville people got ready to form a local company to establish an exchange in this city and place telephones at a reasonable cost to both business men and house occupants. It is claimed that a good telephone service can be maintained in Janesville for a rental of \$2 per month for business houses and \$1 per month for private houses, and that those figures will be established in the near future.

Have Two Hundred Subscribers.

Already canvass has been made and it is claimed that at least two hundred subscribers have pledged themselves and it will soon be established unless the Wisconsin Telephone Company at once reduces the rental of its services to a fair basis. The proposed company are moving on a sure and safe basis, taking subscribers for five years at given price, which does not include royalty on the instruments.

Instruments will be sold subscribers, and the only charges will be made for services at the central office, if so desired.

There will be no difficulty in obtaining franchise, as one has already been given the Strowger company, and this can be obtained in case the council should refuse to grant another, a stand which that body is not likely to take.

It is claimed the Wisconsin Telephone Company is compelled to pay the Bell company a royalty of \$2 per month on each telephone in use, which fact compels the Wisconsin company to charge \$3 for private house and \$4 for business places. If this be true, and the United States supreme court has given the Bell monopoly a death blow, it is claimed that the Wisconsin company would be doing nothing but the right thing in placing the rental of their instruments at \$1 and \$2 which would satisfy the public, and prevent a war.

One thing, however, is morally certain. Before many months Janesville people will have cheap telephone service, if they have to put it in themselves.

EAU CLAIRE WATER PROPOSITION

William Ruger Writes a Letter to the Sentinel Opposing the Idea.

William Ruger takes a stand against the Eau Claire water works loan bill in a communication which was published in the Milwaukee Sentinel a few days ago. As the bill is of a good deal of interest to all the cities where water works are in operation Mr. Ruger's letter is reprinted. He says:

Assembly bill No. 652 entitled "A Bill to Authorize the Commissioner of Public Lands of the State of Wisconsin to Loan a Portion of the Trust Funds of the State to the City of Eau Claire," should challenge public attention. It is to be inferred from reading the bill that the city of Eau Claire desires to purchase the water works located therein and owned by a private company, but has not the money and cannot incur indebtedness to the amount required because of the constitutional restriction limiting the indebtedness which cities may incur.

The representatives of the city have therefore devised an ingenious, if not commendable, scheme of borrowing the necessary amount of the trust fund of the state without making any promise or incurring any obligation to repay either principal or interest.

The proposition is to give a mortgage on the waterworks, together

with bonds which would not contain any promise to pay the debt, but as it is to be infirmed, some promise to apply the income thereto. The third section of the bill says: "So that the money needed for such purpose may be secured of the commissioners of public lands, upon such water works system, but not to constitute an indebtedness of said city, but simply a mortgage lien upon said system of waterworks." The bill then proceeds to authorize the city to procure from the commissioners of public lands "any and all sums of money needful or necessary to make and complete said purchase, not exceeding the sum of two hundred and seventy-five thousand dollars."

This is certainly a thrifty proposal in so far as the city is concerned, as it would obtain the money to make the purchase wholly at the risk of the state. If the waterworks should prove sufficiently profitable to pay off the mortgage the city would own them, without having expended or even put one dollar of its own at risk in the matter, while if the works did not prove profitable enough to pay off the mortgage from the income all the state could get would be the water works. Manifestly it would be equally proper for the state to invest its trust funds in the purchase and operation of such or any other water works, or in any business enterprises whatever. Other cities of the state desire to purchase water works and find the constitutional restriction in their way and this bill will suggest to them that if Eau Claire can purchase water works, wholly at the risk of the state, without paying anything from its own funds or incurring any debt, they may do the same thing, and thus a large share of the trust funds of the state would soon be at risk in ordinary business enterprises, which neither the state or trustee of its funds can legally or prudently embark in. It is not my purpose to fully discuss the demerits of such legislation, but through you to call public attention to it, trusting that you may deem the matter of such importance as to give it consideration and see that public attention is directed to it.

FEBRUARY WAS A MEAN MONTH

More Cold Weather Hasn't Been Crowded Into It in Twenty-Three Years.

February was a cold month. A summary for comparison with Februarys for twenty-three years shows that the mean temperature was 12 and it has never been lower in the time named except in 1875, when it was 6. Twice it has been equaled, in 1885 and '89; but to illustrate the possibilities of February, in 1878 the average temperature was 37. The average for twenty-three years is 20, and this shows better than anything else how cold we have had it this year.

BELOIT IS GETTING A VERY HARD NAME

LINE CITY IS HEADQUARTERS FOR MANY THIEVES.

More Goo's That Are Thought to Be Stolen Were Found in The Express Office and Another Man Is Put Under Arrest—Kletzen Fails to Find His Fleeing Wife.

Beloit is getting a good deal of advertising as a crime-and-sensation-center these days and many and diversified are the deeds done "on the quiet."

For several days a noted Chicago crook has been locked up awaiting developments in a burglary case. A few days ago Marshal Appleby received a letter from H. C. Freutel, a Plymouth merchant, giving a list of property stolen from him a short time before. A few days later boxes came to both the American and U. S. Express offices directed to "Henry Miller." There are two gentlemen in Beloit by that name, and on being notified that there were boxes awaiting their orders they declined to receive them, and one, being suspicious, turned the matter over to the city marshal, who examined the boxes and found the goods therein were the same as described in the letter from Plymouth.

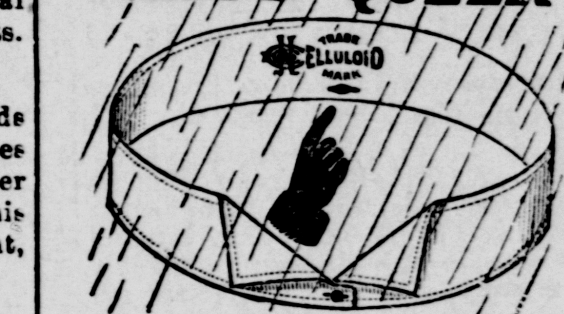

Fought The Detective.

One night after this a stranger asked Officer Shiebel when he thought Elizabeth Price, (Greasy Sal) would be out of jail, and the officer very promptly arrested him on suspicion of being connected with some of the robberies that have lately come to light. Peter Valey, the C. & N. W. detective who has been working on the car robbing case, was shown the prisoner the next day and at once pronounced him George Lester, alias "Maxey" a noted thief from Chicago, and was in turn recognized by "Maxey" and before the interview ended the men had a fist fight. The officers believed that Maxey was the Henry Miller who was to call for the goods, and before they got through with him they wrung some compromising facts from him. The Plymouth merchant and the Plymouth marshal visited Beloit and identified the goods. Maxey was taken to Menasha, from which point the goods were shipped to Beloit.

Looking For His Wife.

Yesterday a new sensation was sprung. William Kletzen, a well-to-do and honest appearing farmer from Whitewater, passed through Janesville en route for the Line City to invoke the aid of the Beloit police to help him find his runaway wife, whom he believes to have left with John Needham, a hired man, leaving three little children. Mrs. Kletzen drove to Whitewater during the afternoon to make a few purchases for the household, and not returning home as she should, her husband set out in search of her and found to his sorrow that she had gone off with a "hard-omeg man." Needham had been working on their farm, but Mr. Kletzen had no suspicion that he was not his friend. He thinks his wife had no thought of running away when she went to town, but that she accidentally met Needham, who may have influenced her. The deserted husband learned that the couple went to Beloit and bought tickets for Dubuque, Ia., so he started in pursuit of them.

THAT'S QUEER!

You say a collar and cuff that are waterproof?

Yes.

And perspiration will not affect them?

Yes.

And when dirty you need only wipe them off with a wet cloth or sponge?

Yes.

Wonderful! How are they made?

A linen collar covered on both sides with waterproof "CELLULOID." Looks exactly like a linen collar.

Is it the only waterproof collar and cuff made?

No, but it is the only one made with the linen interlining and consequently the only one that can give entire satisfaction, because it is the best.

How can I know that I get the right kind?

Because every piece is stamped as follows:

TRADE MARK.

CELLULOID

Inquire for that and refuse anything else, or you will be disappointed.

Suppose my dealer does not have them?

He probably has, but if not, send direct to us, enclosing amount. Collars 25c., Cuffs 50c. State size, and whether collar wanted is stand-up or turned-down.

OUR SAINTS.

'Tis not alone from legend and old story,
'Tis not alone from canvas dark with time,
That holy saints, crowned with celestial glory,
Smile down upon us from their height sublime.

Not only from church windows, colored brightly,
Do their blessed shadows fall across our way,
Ah, not alone in niches gleaming whitely,
With folded hands do they stand night and day.

Who is there in this wide world who has not,
Hidden
Deep in his heart, a picture clear or faint,
Veiled, sacred, to the outer world forbidden,
Of which he bends and murmurs low, "My saint?"

A face perhaps all written o'er with sorrow,
Whose faded eyes are dim with unshed tears,
And yet they hopefully look toward the morrow,
And far beyond it into brighter spheres—

A face whence all the sunshine of the morning
And brightness of the noon have passed away
And yet where clearly, surely, there is dawning
The wondrous radiance of that perfect day—

That perfect day, when, crowned with heaven's
brightness
Without a pain or care or mortal need,
With conqueror's p.m. in robes of snowy
whiteness,
Our blessed shall stand as very saints indeed.

Yes, God, be thankful, though the pure saints
of story,
And holy martyrs that the artist paints,
Are veiled in radiance and crowned with glory
There still are halos for these unknown
saints.

CUPID AND PSYCHE.

His name upon the ship's books was Edward Braithwaite Colchester, but between Tilbury and Sydney harbor he was better known as Cupid. His mother was a widow, with four more olive branches, absolutely dependent on her own and Teddy's exertions.

At the best of times kindergartens for the children of respectable tradespeople are not particularly remunerative, and the semidetached villa in Sydenham was often sorely tried for petty cash.

But when Teddy was appointed fourth officer of the X. Y. Z. company's steamship Cambrian Prince endless possibilities were opened up.

If you will remember that everything in this world is ordained to a certain end, you will see that Teddy's future entirely depended on his falling in love—first love of course, and not the matter of fact businesslike affair that follows later.

After his second voyage he obtained a fortnight's leave and hastened home. Being fond of tennis and such like amusements, he was naturally brought into contact with many charming girls, who, because he was a strange man and a sailor, were effusively polite.

Then he fell hopelessly in love with a horribly impossible girl, and in the excitement of the latest waltz proposed and was accepted on the strength of a fourth officer's pay, an incipient mustache and a dozen or so brass buttons.

During the next voyage his behavior toward unmarried women was marked by that circumspection which should always characterize an engaged man.

He never allowed himself to forget this for an instant, and his cabin had for its chief ornament a plush framed likeness of a young lady gazing with a wistful expression over a palpably photographic sea.

Now it was necessary for his ultimate happiness that Teddy Colchester should learn that, like his own brass buttons, without constant burnishing a young lady's affection is apt to lose much of its pristine brightness, and that too much sea air is good for neither. He ticked off the days of absence, and as his calendar lessened his affection increased.

At Plymouth a letter met him, a jerky, inky schoolgirl epistle, evidently written by a writer very cold and miserable, and the first reading stunned him.

Had he seen a little more of the real world he would have been able to read between the lines something to this effect: "You're Teddy, three months away, and I'm madly in love with a soldier."

Then he would have noted that the writer was staying in Salisbury, after which he would have hunted up his home papers and discovered that the Royal Wiltshire yeomanry cavalry were encamped at Humington Down.

But as he had only seen life through a telescope he could not do this. Consequently his pain was a trifle acute.

His mother wrote him four pages of sympathy.

But though he wondered at any girl jilting her boy she could not help a feeling of satisfaction at its being still in her power to transmute three-quarters of his pay into food and raiment for her brood.

Next voyage the Cambrian Prince had her full complement of passengers, and the Kangaroo Girl, whom perhaps you may remember, was of the number.

At Plymouth a little reserved girl joined, and as she is considerably mixed up in this story you must know that she rejoiced in the unpretentious name of Hinks.

For the first week or so Teddy held very much aloof from the passengers, engaging himself entirely with recollections of the girl for whose sake he was going to live "only in memory."

Being an honest, straightforward young fellow, he of course followed the prescribed programme of all blighted love affairs. He began by pitying himself for the sorrow he was undergoing, then went on to picture the future that might have been theirs had she married him, but before they were clear of the bay he had arrived at the invariable conclusion and was pitying himself for pitying the girl who was foolish enough to jilt such an entirely estimable young man as Edward Braithwaite Colchester.

One moonlight night, after leaving "Gib," he was leaning over the rails of the promenade deck feeling sympathetically inclined to the world in general when somebody stepped up behind him.

It was Miss Hinks. She prefaced her conversation with two or three questions

about the sea, and he made the astounding discovery that her voice possessed just the note of sympathy he required for his complaint.

He had felt sorry for her because other people snubbed her, and she for him because she had been told exaggerated stories about his love affair. Together they made rather a curious couple.

When, under the supervision of the Kangaroo Girl, the shore party for Naples was being organized, Miss Hinks was tacitly left out. Somehow the impression got about that she was poor, and no one cared about paying her expenses.

But eventually she did go, and it was in the charge of the fourth officer. When she thanked him for his kindness, he forgot for the moment his pledge "to live henceforth only in a memory."

The Kangaroo Girl, on discovering that Miss Hinks had been on shore under the escort of that "dear little pink officer," was vastly amused and christened them Cupid and Psyche.

Now, the end of it all was that Teddy began to find himself caring less and less for the thumb-stained photograph in his locker and more and more for the privilege of pumping his sorrows into a sympathetic ear.

By the time they reached Aden he had convinced himself that his first love affair had been the result of a too generous nature, and that his second was the one and only real passion of his life.

At Colombo Miss Hinks went ashore with the doctor's party, dined at the Mount Lavinia, and started back for the ship about 9 o'clock.

Teddy, begrimed with coal dust, watched each boatload arrive, and as he did his love increased.

On account of the coal barges it was impossible for boats to come alongside. Consequently their freight had to clamber from bulk to bulk. Miss Hinks was the last of her party to venture, and just as the doctor, holding out his hand, told her to jump the bulk swayed out, and she fell, with a scream, into the void.

Then before any one could realize what had happened the barge rolled back into its place. Miss Hinks had disappeared.

Teddy, from half way up the gangway, tore off his coat, leaped into the water, and at the risk of having his brains knocked out dived and plunged between the boats, but without success. Then he saw something white astern and swam toward it.

The half-drowned couple must have come to an understanding in the rescuing boat, for next day their engagement was announced.

The Kangaroo Girl gave evidence of her wit when she said, "It was fortunate they were Cupid and Psyche; otherwise they would find love rather insufficient capital to begin housekeeping upon."

Teddy wrote to his mother from Adelaide, and she, poor woman, was not best pleased to hear the news. But a surprise was in store for us all.

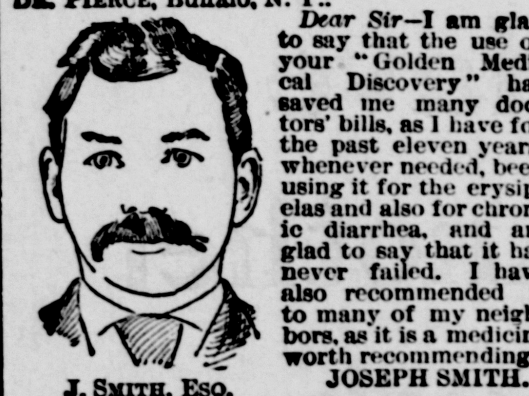

On the Cambrian Prince's arrival in Sydney Miss Hinks was met by an old gentleman, who, it appeared, was her solicitor. On being informed of the engagement he examined Teddy with peculiar interest and asked if he were aware of his good fortune. Miss Hinks smiled.

Half an hour later we learned that the girl whom we'd been pitying for her poverty was none other than Miss Hinks-Gratton, the millionairess and owner of innumerable station and town properties.

The Teddy of today is a director of half a dozen shipping companies, and he quite agrees with me "that everything in this world is ordained to a certain end."—Pall Mall Gazette.

OUR GLORIOUS OPPORTUNITY.

Democracy, in Janesville is dead. The democratic party has run out of material, out of issues, and out of every thing that makes a political party.

Republicanism, in Janesville is in its prime. We have the men, we have the issues, and the power to put our policy into operation.

Never, in the history of the state, nation or municipality, has a great political party been so crippled and scattered down as "our friends, the enemy," are today.

Good management is all that is needed to put republicans in every office and keep them there indefinitely. The republican party should be in power, and it will be. This statement is backed by every reason and every condition that is necessary. The republican party, on the eve of the realization of this glorious fact, should look well to all details. Put only the best men in nomination, from constable to mayor, and the grand old party with its patriotic principles, policy and practices, will perpetuate its success until time ceases to roll. Don't hang back and say "We've got 'em running" but look well to the future. No rule, no slates and no packed caucuses, but united action with loyalty to the republican party, should be the watchword. With careful attention to the public business, the democratic jackass will bray beyond the outer wall forever and a day.

Cleveland's liking for shooting must be catching. Gunning is popular now, and while he's gunning for ducks, nine-tenths of the people in the country are gunning for his scalp. He may not get the ducks, but the people will get the much sought scalp lock beyond a doubt.

It is said that the life insurance companies will cancel all their policies on the lives of democratic stump speakers during the next campaign for fear that the spellbinders might make the customary assertion that "the democratic party is the friend of the working man."

Janesville never had a better chief of police than Theodore L. Acheson. He's a good man for the place and republican success means continuing him in office. He is capable and trustworthy and deserves reappointment. This is no he good reason for voting he republican ticket.

Mever mind, Grover; don't cry. "The true you can only devote two weeks to duck shooting now, but think of all the time you will have in '97, with nothing else to do but hunt. Don't sell your gun and hip boots for a song. You may need 'em later."

Sheriff Appleby's clever work shows that he is not only a credit to his party, but to the banner county of Wisconsin as well.

They will serve one of their famous suppers in Holloway & Johnson's former hardware store on Wednesday, March 13. All who wish to enjoy a splendid German supper and at the same time help the young congregation, are cordially invited.

THE best house that has met any attraction at the Bushnell opera house, in a good while was that which greeted "Uncle Josh Spruceby" and his fellows last evening. Every regular seat in the house was sold and chairs had to be set in the aisles for some. The audience was well pleased. The thrilling sawmill scene and other highly sensational situations and bits of realism that are not often seen on the stage induced intense excitement and the rich comedy of many of the people brought down the house on occasions too numerous to undertake a catalogue of. Then the singing and dancing were of the best of their class that Bushnell audiences are favored with, so that, take it all in all it was a most excellent performance. The band and orchestra are excellent features of the organization. Myers Grant next Friday evening.

WILD GOOSE CHASE FOR THE POLICE

JANESVILLE OFFICERS CALLED TO JOHNSTOWN.

Storekeeper Thought He Was Going To Be Robbed and Wanted Chief Acheson and Officer Hogan in a Hurry—Edgerton Men Awaiting Trial—Other Police Stories.

"Send Acheson and Hogan out here as quick as you can" was the message that came over the jail telephone last night from Johnston. Turnkey North answered the phone and asked what was the matter.

"This is Hall's store at Johnston" came the answer. "There are two suspicious looking men hanging about here and I am afraid they are going to rob my store tonight."

"You might get a gun and kill them," suggested the turnkey.

"No, I want the police!"

Talk made no impression on the Johnston man so the turnkey hunted up the chief of police and he and Officer Hogan started. They drove all the way to Johnston with a lively team and were ready to bring as many men back with them as the necessities of the case required, but when they arrived they found that the strangers had peacefully gone to bed and were asleep. They woke them up, pried them with questions and searched their clothes and the room but found nothing so they returned empty handed. Some one broke into Mr. Hall's store some time ago and carried off a wagon load of goods so he has been naturally enough, suspicious of strangers.

Edgerton Men Are In Jail.

John Keller and Paul Watson of Edgerton, are now in jail awaiting trial on charge of receiving stolen goods. Their case was on the calendar in the municipal court for today, but owing to defects in the papers the cases were not called. The Edgerton justice committed the defendants, using a search warrant instead of the regular commitment. William Stricker, also of Edgerton, is awaiting trial on a charge of burglary and larceny, he being charged with burglarizing the saloon of Charles F. Frank on February 22 and taking therefrom a keg of liquor valued at forty dollars which he shared with Keller and Watson. It is thought that Stricker will plead guilty, and take his chance of a trip to Waupun for a short time.

Sheriff Appleby was notified yesterday that the bondsmen of the Johnson Brothers, who are charged with receiving the goods alleged to have been stolen by Flynn, Crowley and Franklin, wished to surrender them, so he at once left for the Line City to see about it. The Johnsons at once got new bondsmen, however, so they did not come up to jail. The new sureties are John Clinchy, a retired grocer, and James McAlpin, an alderman.

A gray haired old soldier who insisted on telling all his troubles to the ladies at the St. Paul depot last evening, was arrested by Turnkey North last night. The man was making himself generally obnoxious, but after sleeping in a jail bunk all night he became very docile, and was turned loose this morning.

ASSOCIATED CHARITIES THANKFUL.

Appreciate the Donations Tendered Them And All Services Rendered.

The Associated Charities wish to acknowledge the receipt of three hundred and sixteen dollars as a result of the Imperial Entertainment. Also a donation of five dollars from I. C. Brownell. Without the means which has come to our timely aid, the work of the Association would have been curtailed.

The demands for relief are greater than ever before, and while many of these are based upon insufficient or no work, the wisdom of the society is often severely taxed to discriminate between the unemployed and the habitually idle and thriftless, who take advantage of the emergency to assert their equal rights to share the public benevolence.

Doubtless some undeserving persons are thus helped at the expense of the unfortunate. We try to render prompt, effective and sufficient aid, in such a way that the recipient shall not thereby lose his self respect but that he shall simply be helped to self-help.

The association has been severely criticized in many cases and unjustly so. Every application for help is carefully investigated and relief given when reported by citizens who claim to know them to be worthy. We also extend our thanks to the gentlemen who were active in getting up and carrying out the Imperial Entertainment.

We acknowledge, gratefully the good will, financial support and cooperation which this charity organization has received in the past, and we hope to merit and receive similar cooperation in the future.

M. CHITTENDEN, Secretary.

LAWYERS WANT JUSTICE WINSLOW

Local Attorney Says That a Majority of Lawyers Favor Him.

"I am strongly in favor of Judge Winslow's re-election," remarked a Janesville lawyer who is an active republican. "He is an able man and does what he thinks is right. His opinions are always sound and a large majority of the lawyers in Wisconsin are in favor of his election. We do not want to change judges every two years. Justice Winslow has been there just long enough to get thoroughly familiar with his duties. I am in favor of Justice Winslow's re-election; I do not like to see politics mixed up in a judicial election."

BABY MARIE A CHILD-WONDER

Her Concert at the First Methodist Church Astonished the Audience

An entertainment that was as charming as it was unique was given at the First Methodist church last evening by "Baby Marie Edwards" aged six years. "Overture to William Tell," for four hands was rendered by Baby Marie and her father, C. W. Edwards, as the opening number and "Faust March" was also rendered as was a fantasia from "Il Travatore" for violin and piano. Baby Marie is possessed of wonderful musical talent and her performance surprised everybody, but more especially the musicians in the audience who realized the ability that was necessary to render the selections chosen. Miss Marie Wilcox assisted in the entertainment with vocal solos and Miss Newell also contributed to its success. It was a very enjoyable event and of the kind seldom furnished for Janesville people.

One of the Oldest Firms in Town Will Be Divided.

Mr. Rogers has reached that age when he thinks he will quit work and enjoy himself. Mr. Hutchinson will continue business at the same stand.

Supper was served at 6:30 and after the official business had been done the evening was very pleasantly spent with card playing and sociability.

GOV. UPHAM WANTED NO STYLE

Would Not Ride in a Private Car But Traveled in a Coach.

Governor Upham passed through Janesville yesterday afternoon on his way from Madison to Monroe to attend a dairy convention. The St. Paul officials offered him the use of a private car but he refused it and said he preferred to travel in the old regulation way. There is no "silk stocking" business with the governor. He is a man of the people and is proud of it.

TO CALL CAUCUSES IN A DAY OR TWO

REPUBLICAN PRIMARIES ARE TO BE HELD SOON.

Convention Will Probably Be Held Very Soon After the Delegates Are Named—No Registration Was Ordered By the Council So the Old Lists Will Be Used

The time is drawing near for the republican city primaries, which are to place in nomination candidates for ward officers and select delegates to attend the city convention, which places in the field the winning ticket for city officers. Last year these primary meetings were held on March 14, and it is likely the committee will issue a call in a day or two. The city convention and the primaries will probably be called for about the same date. Republicans should make a point to attend the caucuses and see that the best men are selected. The republican city committee is composed of the following gentlemen: T. W. Goldin, chairman. First Ward—C. E. Bowles. Second Ward—C. D. Child. Third Ward—H. S. Sloan. Fourth Ward—F. A. Vankirk. Fifth Ward—C. E. Chu ch. The several ward chairmen are as follows:

First Ward—T. W. Goldin. Second Ward—F. L. Clemons. Third Ward—G. L. Carrington. Fourth Ward—J. F. Pember. Fifth Ward—D. C. Burdick.

There will be no registration of voters this spring. The law, as amended by the last legislature, specifies that there shall be no registration in cities of Janesville's class at municipal elections, unless ordered by the common council at least thirty days previous to the election. The Janesville council failed to so order, consequently the registration for the last election will be used.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.
It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots at that time will receive a certificate entitling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

The Keystone of the Arch

In the office of health is vigor, which means not merely muscular energy but an active discharge of all various functions of the body such as digestion, secretion, the action of the bowels, the circulation of the blood. Nothing more actively and thoroughly contributes to the united performance of these functions than the renowned tonic and regulator, Hoste's Stomach Bitters. The result of its use is a speedy gain in strength, together with the agreeable consciousness that the course of life is being strengthened—it is lying up a store of vitality against the unavoidable draughts which it makes in the system. The fortifying influence of the Bitters constitutes it a reliable safeguard against malaria, rheumatism, and all kinds of nervous and sleeping over-irritations, and protects the system from the effects of cold and damp.

If the Baby is Cutting Teeth, soothe and use that of and well-tried remedy, Mrs. Winslow's Soothing Syrup for children's teething. It soothes the child, softens the gums, allays a pain, cures wind colic and the best remedy for diarrhoea. Twenty-five cents a bottle.

It is not a miracle. It won't cure everything, but it will cure piles. That's what De Witt's Witch Hazel Salve will do, because it has done it in hundreds of cases. C. D. Stevens

Elopement in Oklahoma.

Oklahoma has an elopement sensation. Rattlesnake Bill having run off with Clara Melville, daughter of a wealthy cattleman. The lovers rode on the swiftest horses, and the father, who pursued them, arrived too late. He forgave them, however, and a grand supper was given at the "Two Bar" ranch.

We wish to state to our patrons that One Minute Cough Cure is a safe and reliable remedy for children troubled with croup, colds, hoarseness and lung troubles. It is pleasant to take, and quickly cures. C. D. Stevens.

Trotters Come High.

Killing trotters comes high in Missouri. A resident of St. Louis has just recovered a verdict for damages from the owner whose horse ran into and caused the death of the trotter Mark Twaing, 234, in 1891. The plaintiff gets \$11,114.68, and the defendant has further to pay costs, amounting to over \$4,000.

Warning to MOTHERS.

Many internal remedies are being skillfully and glibly advertised, professing to shorten Labor, Lessen Pains of Child-birth, etc., and with wonderful inconsistency to regulate menstruation. Common sense should teach any woman that a preparation adapted for MENSTRUAL DISORDERS will not prepare the system for Child-birth; on the contrary, internal remedies at this time imperil her life. We earnestly say beware of all such; they cannot, at this critical period, do any possible good, and their use may prove fatal. It is only by persistent EXTERNAL treatment while enduring, thus relaxing and softening all the parts, that the hour of Child-birth is robbed of its terror; and no remedy on earth does this but "MOTHER'S FRIEND."
